➔ PROFESSIONAL EXPERIENCE

SBSC: Remote — *Software Engineer(contract) [sbsc.com]*   OCT 2020 - PRESENT
- ❖ Built UI components in React.js and other frontend technologies to digitize the process of global trade.
- ❖ Improved output on project by increasing project completion rate by over 20% in one month, meeting deadlines and improving client satisfaction.

Softescu: Remote — *Web Developer [softescu.com]*   MAR 2020 - OCT 2020
- ❖ Collaborated with various teams in designing, building and maintenance of client applications for different web/mobile solutions with a satisfaction rate of over 80%.
- ❖ Extensively used Angular, Ionic and Scss to build client and company applications, in the process I was opportune to maintain and improve legacy Angular projects like "Openstory".
- ❖ Built responsive and reusable Angular components to create an abstraction over Drupal CSM platform.

Bloverse: Remote — *Javascript Engineer [bloverse.com]*   NOV 2018 - NOV 2019
- ❖ Worked extensively on adding new features and improving the performance and accessibility of Bloverse as a platform.
- ❖ Mentored and supported less experienced developers in the team helping them level up their technical skills which in turn improved the overall output of the team by over 40%.

Rytegate Technologies — *Software Developer [rytegate.com]*   FEB 2018 - NOV 2018
- ❖ Led a team of three software developers to build Opsmanager version 2.0, maintain the company's in-house legacy code written in PHP and other SaaS.
- ❖ Reduced the cost of operation by 30% by automating processes and completely stopped financial leakages by building systems that track invoices, compare price changes and automatically send reports to the head of departments.
- ❖ Awarded best staff in two FY quarters in a row.

Prunedge Technologies — *Software Developer [prunedge.com]*   FEB 2017 - JAN 2018
- ❖ Built and maintained software applications for clients, interfacing and communicating with clients and colleagues with a client satisfaction rate of over 90%.
- ❖ Actively organised and participated in a training workshop with over 200+ participants that generated 70% of the company's revenue for that month.
- ❖ Delivered a project that made the company $30,000.

LodgeFriend — *Co-founder / Software Developer [lodgefriend.com]*   SEP 2015 - DEC 2018
- ❖ Built and maintained the UI and Database of an easy to use accommodation solution targeted at helping individuals easily find rental properties that fit their budget.
- ❖ Interfaced with clients in response to any difficulty faced using Lodgefriend and resolved them quickly. Serviced over 5000 clients within Nigeria.

➔ EDUCATION

Bachelor of Computer Science, Nnamdi Azikiwe University. 2015
- ❖ **Courses:** OOP, Compilers, Algorithms, Operating Systems, Data Structures
